- **Academics:** 3.7 / 4.0 cGPA, York University Renewable Scholarship (\$10,000)
- **Case Competitions:** 1<sup>st</sup> Place Franklin Templeton Case Competition, 2<sup>nd</sup> Place Deloitte Consulting Case Competition
- **Coursework:** Operations & Supply Chain Management, Strategic Management, Analyzing Data, Management Accounting

## PROFESSIONAL EXPERIENCE

### Capital One Bank

Toronto, ON

*Incoming Process Manager*

*January 2027*

### Deloitte Consulting LLP

Toronto, ON

*Business Analyst, Technology & Transformation*

*May 2026 – August 2026*

- Engaged across **Finance Transformation, Banking & Capital Markets, Cyber Risk, and Payments** practices, spanning process design, ERP implementation, and program delivery for financial institutions
- Selected Project Experience:
  - Assessed Oracle ERP readiness across **8 entities**; gathered requirements from **40+ Finance end-users** across **20+ processes** and facilitated **25 workshops** to surface process gaps and drive Key Design Decisions (KDDs)
  - Aligned **20+ stakeholders** across **Finance, Technology, and Data** functions to validate requirements, surface integration dependencies, and resolve design decisions across data, reporting, and implementation workstreams
  - Configured **TPRM workflows** in Process Unity, mapped Jira fields, developed **validation business rules** across governance processes, and conducted iterative **UAT cycles** to enforce and continuously improve process compliance
  - Produced Steering Committee reporting for a **multi-year investment platform go-live**, translating defects and deployment risks into risk mitigation recommendations for Canada–US executive leadership
  - Analyzed **implementation dependencies** and **critical milestones** to evaluate alternative deployment and parallel-run scenarios, assessing business impact of scope and defect remediation trade-offs on go-live timing

### Wealthsimple Technologies Inc.

Toronto, ON

*Intern, Finance Operations*

*September 2025 – April 2026*

- Redesigned P2P invoice processing end-to-end across **Finance Operations, Finance IT, Accounting, Tax, and FP&A**, eliminating **5–10 hours of weekly manual work** through process automation and waste elimination
- Selected Project Experience:
  - Delivered real-time cost visibility across **\$16.9M in business savings** for Finance leadership by engineering a JavaScript dashboard that consolidated five disparate Excel data sources, **cutting reporting cycles by 66%**
  - Consolidated **4 siloed tools** into a centralized Notion system across **17+ active projects**, eliminating redundant standups for **9 stakeholders** and reducing coordination overhead

## LEADERSHIP & EXTRACURRICULAR EXPERIENCE

### 180 Degrees Consulting (DC)

Toronto, ON

*Engagement Manager & Vice President, Pro-Bono Consulting*

*August 2024 – Present*

- Led cross-functional consulting teams from scoping through delivery for social enterprise clients, managing project planning, workstream coordination, and stakeholder reporting
- Selected Project Experience:
  - Product and pricing strategy for a Silicon Valley re-entry-tech startup
    - Developed a bottom-up market sizing model estimating a **\$67M market opportunity** and a pricing model validating a **\$3,000–4,800/year** price point for a Silicon Valley re-entry-tech startup's CRM product
  - Engagement Manager for a Bay Area re-entry-education non-profit
    - Managed **7 consultants across 3 workstreams** (data analysis; barriers research; reporting), coordinating project timelines and deliverables for a board-level presentation on program outcomes
    - Mapped end-to-end enrollment-to-retention process flow across **195 program participants**, identifying that **3 partner institutions drove 66% of retained enrollment** and recommending resource concentration
